TURNKEY BASE CAMP SOLUTIONS:

Providing base camps with wide shelter options for troops, shower facilities, laundry systems, storage containers, and power generators. The turnkey base camp solutions are practical, fast and easy solutions for a fully operational military camp in undeveloped locations.

MILITARY SHELTERS:

Structures necessary to support military troop accommodations available in multiple options, structured using our high quality PVC or sandwich panel which installed on a steel structure, generally, the steel structure is the most required due wind load extreme and bad weather conditions, in addition to the look it gives which is similar to the regular buildings.

THE FALCON AND THE POD:

The Falcon: Available in sizes ranging from 3 to 30 meters, adaptable to various space requirements. Heights range from 7 to 18 meters. Main doors are customizable, ranging from 1 to 5 meters, with options for additional emergency and service doors.

The Pod:

- 14.4 sqm prefabricated officer accommodation with sandwich panel side walls
- Equipped with a single bed
- Includes a bathroom with a shower and washstand
- Features a split AC system providing both hot and cold air

CUSTOM PREFABRICATED CONTAINERS:

BMS Support base units and booths are designed for quick, cost-effective on-site assembly and installation, providing easy and practical solutions for support and management offices. They ensure consistent quality and productivity and offer uniformity across all setups.

FIELD MEDICAL FACILITY SOLUTIONS:

These units can be transformed into integrated field hospitals and clinics, equipped with top-tier medical equipment and built to the highest specifications. Specially designed flooring adheres to safety and preventive medicine standards. Additionally, the units incorporate the latest innovative technologies, including advanced sensor systems, surveillance cameras, and fire-fighting systems, to ensure optimal safety and health solutions.

THE WC UNITS:

BMS Mobile WC Units deliver consistent, high-quality production and enhanced productivity. Our standardized production process ensures that each unit is completed in-house to a superior quality level compared to on-site construction.

WAREHOUSES, MAINTENANCE FACILITIES AND HANGARS:

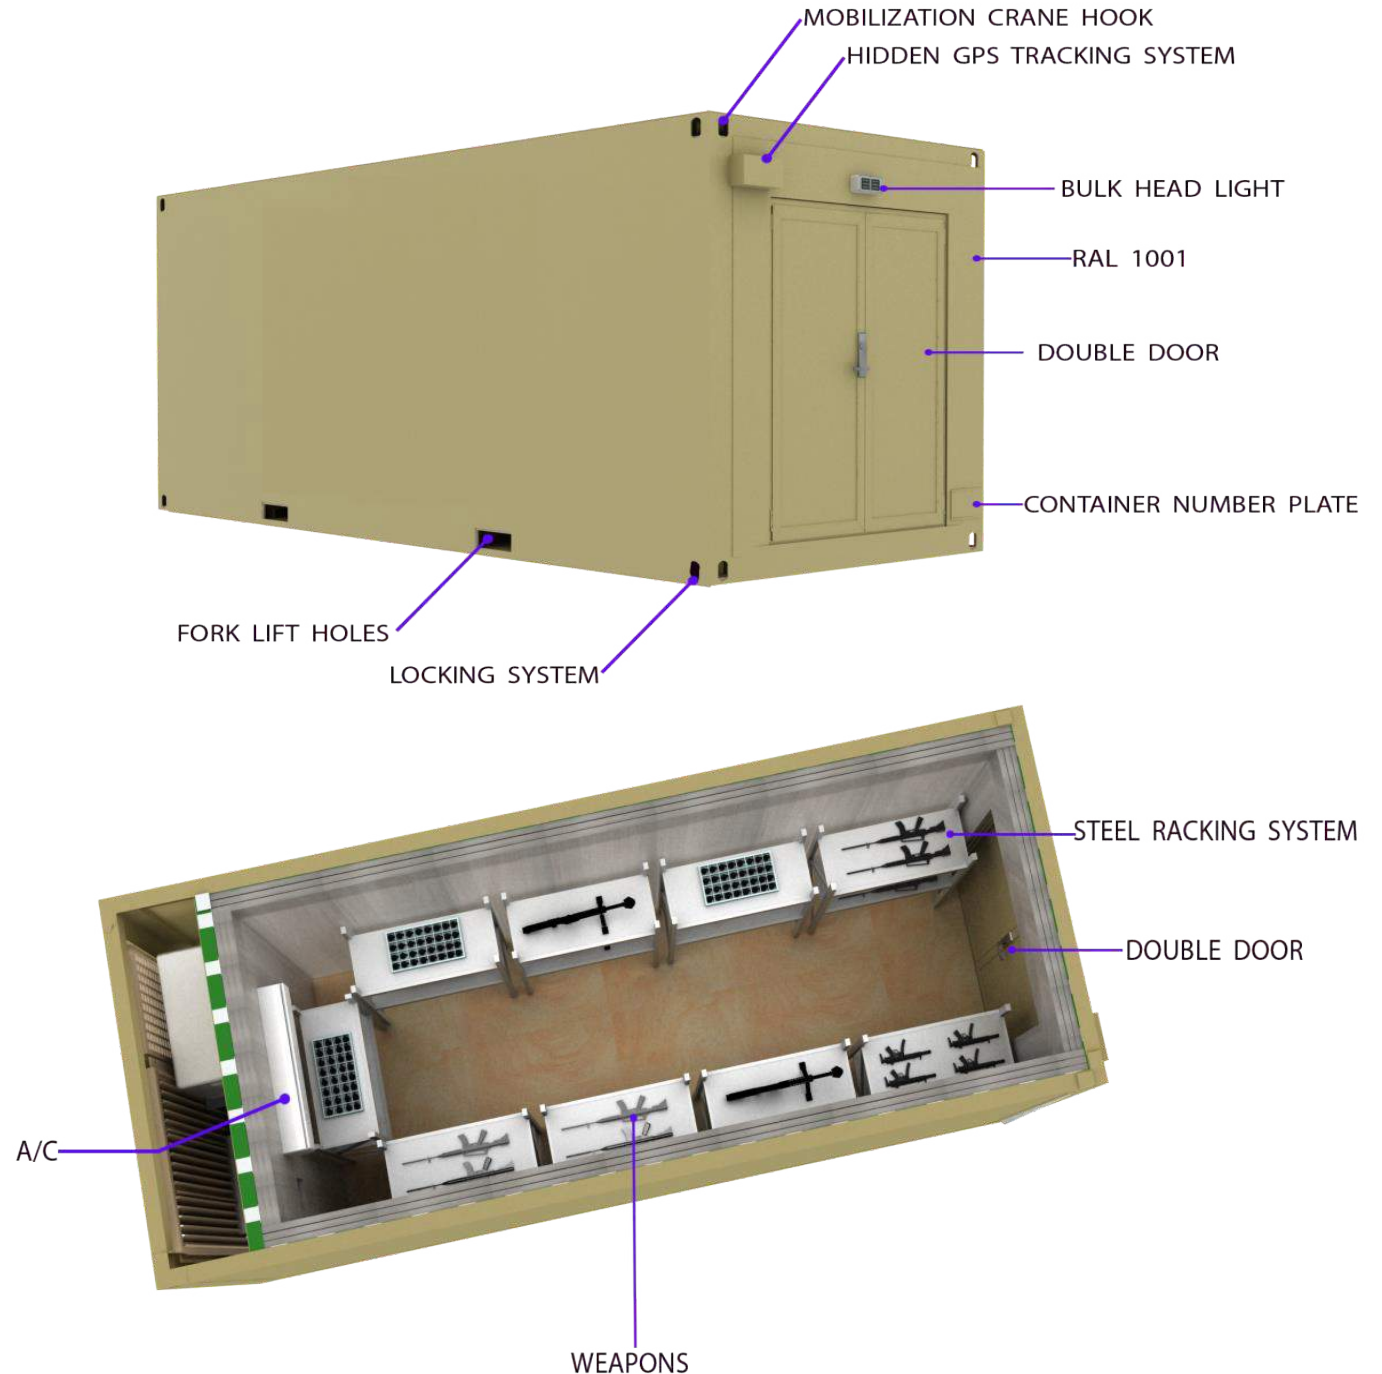

DESIGNED AND BUILT TO MEET EACH MISSION REQUIREMENT FOR RAPID DEPLOYMENT AND TO SUPPORT COST-EFFECTIVE OPERATIONS

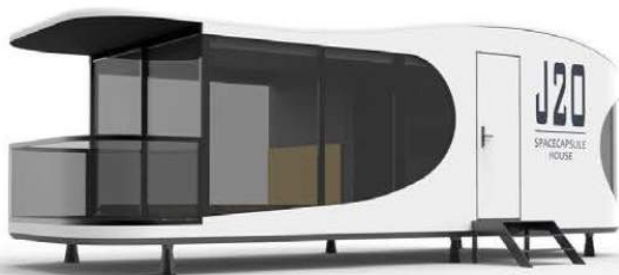

Blast-Resistant UNITS:

Our explosion-proof storage units are engineered for maximum safety, featuring walls with thick wood, rock wool insulation, and a robust iron frame for stability. The outer layer is explosion-proof and bulletproof, offering top protection against blasts and ballistic impacts.

These units are ideal for storing hazardous materials or sensitive equipment in high-risk environments, ensuring superior protection and peace of mind. Designed to withstand extreme conditions, they provide unmatched security, safeguarding valuable assets from potential explosions and other severe threats.

TURNKEY CAPSULES:

Discover the ultimate in luxury and innovation with BeMotion Solutions, LLC Space Capsule Living Quarters. These state-of-the-art, eco-friendly prefabricated living quarters are designed for quick installation and offer a unique and attractive aesthetic that seamlessly blends with nature. Whether nestled on a mountaintop, deep in a forest, or in the heart of a desert, BeMotion Solutions, LLC Space Capsule Living Quarters provide panoramic views and a paradise-like experience.

Featuring advanced technology and superior construction, these quarters ensure privacy, security, and comfort, meeting the modern demand for luxury living away from the hustle and bustle of city life. Perfect for enhancing existing B&Bs or as standalone retreats, our living quarters are customizable to suit any environment, offering a 270-degree panoramic view and close contact with nature.

Choose BeMotion Solutions, LLC Space Capsule Living Quarters for an unparalleled living experience.

POLICE AND SECURITY ACADEMY:

Modular housing is highly useful in setting up a Police and Security Academy due to its quick deployment, cost-effectiveness, and flexibility in creating customized training environments. These structures can be rapidly assembled on-site, reducing construction time and costs.

Each design can be tailored to meet specific organizational requirements and create comforts, allowing for the creation of specialized facilities such as classrooms, dormitories, simulation rooms, and tactical training areas, all customized to provide a comfortable and effective training environment that meets the specific needs of police and security training programs.
